📍 urlabari, Nepal

Profile

Motivated MERN Stack Developer with a strong passion for web development, eager to contribute to the growth of an innovative organization. Committed to delivering high-quality user experiences while continually expanding technical skills and staying current with industry trends.

Professional Experience

2024/06 – 2024/09 Itahari, Nepal	**YouthIT** *Mern Stack Developer Intern*

- Collaborated with a team to build a feature-rich Inventory Management System using **React.js** and **Node.js**.
- Implemented **product CRUD operations**, **sales tracking**, and **real-time stock updates** to streamline inventory control.
- Developed features such as **image upload**, **auto-generated product IDs**, and **dynamic store entries** to enhance user interaction and efficiency.
- Helped design and style a **responsive admin dashboard** using **Tailwind CSS**, with visualizations powered by **Chart.js** for real-time insights.
- Contributed to the development of **eCommerce functionalities** including **shopping cart integration**, **product listing pages**, and **order management workflows**.
- Used **Git** and **GitHub** for version control and collaborative development.

Education

present Sundar haraicha-4, Nepal	**BSc (Hons) Computing** *Itahari International College*
2021 – 2022 Pathari - shanishchare	**SLC** *Shree Panchayat Higher Secondary School*
2020 Urlabari-6,morang	**SEE** *Holy Child English school*

Projects

2025/01 – 2025/05	**Crowdfunding platform**

- Developed a **full-stack crowdfunding platform** using **MongoDB, Express.js, React.js, and Node.js**, allowing users to create, browse, and support fundraising campaigns.
- Implemented **campaign creation with image uploads**, category selection, goal tracking, and real-time donation progress updates.
- Integrated **secure payment handling** (e.g. esewa) and created a **user dashboard** to manage contributions and campaigns.
- Focused on a responsive and user-friendly UI with **Tailwind CSS**, and ensured smooth user experience with **React Hooks** and **API integration**.

2024/07 – 2024/09	**Ecommerce Website**

- Built a **full-featured e-commerce platform** using **MongoDB, Express.js, React.js, and Node.js**, with features like product listing, filtering, and cart management.
- Developed secure **user authentication** and **role-based access**, enabling separate dashboards for users and admins.
- Implemented **order placement**, **payment gateway integration** (e.g. esewa), and **order tracking functionality**.
- Designed a **responsive and modern UI** using **Tailwind CSS**, and optimized performance with **React hooks** and **RESTful APIs**.
